

For TURKISH CUSTOMERS

Since PayPal is out of service in Turkey, we have prepared alternative payment method “SPIKE” system which you can pay by your credit card as below step;

1. Please tell us which item/size/color/quantity you need exactly, you can refer the available items in our website.

Best way is, you can use our shopping cart at our website and take the screen shot of the shopping cart, then send us the picture.

2. We will send you the payment link according to your requested items and you can pay if everything ok.

3. We will ship out goods and send you the tracking number as usual.

We look forward to receiving your request.
