○ standard item ※1 ● possible to attach ※1 Specifications from the original reel, however not exactly same design, or no optional parts. Bearing is either normal BB or CRBB is coming together.
※2 attachable, but brake works more strongly. Some correspondences (e.g. STZSV105 + spool of STZSV-TW1016) can't work due to too less application of brake.
※3 size is different (can't adjust the mechanical brake. Troubles, like spool position varies, or spool free won't work will occur).
