

SMITH

D-Compact

"D-Compact"

It does not mean that it is small,
but as a "condensed product" of the
past years, it has amazing "ease of use" and "feeding power" .

- LENGTH : 45mm

- WEIGHT : 3.5g

COLOR

A back that places the apex of buoyancy right above the center of gravity. And a flat side that enhances the fluttering effect. A thin lip that achieves a balance of sharpness in swimming, water bite, and strength.

"Ease of use" and "eating power"
that does not pop out in any situation

"Ease of use" and "biting power"
with easy range control

"Ease of use" and "eating power"
with light operation feeling
