Stainless steel scissors with outstanding sharpness
Compact storage in a carabiner for easy portability.

Carabiner type retractable scissors that combine compact size and ease of use. German-made 4116Krupp stainless steel is used for the PE line compatible scissors. When not in use, the cutting edge can be stored in the carabiner, so it can be easily attached to various places such as bags and clothing loops for safe and compact portability.

GM KARABINER SCISSORS

- 1 stainless steel scissors**
Retractable stainless steel scissors for PE line. (4116Krupp stainless steel made in Germany)
- 2 Rotating slide storage**
The cutting edge can be stored compactly by rotating and sliding.
- 3 Grip (carabiner) shape**
When using scissors, the carabiner has a shape that makes it easy to hold your fingers firmly on either the inside or outside of the carabiner.
- 4 Split ring**
Comes with a multi-purpose split ring.
