- LENGTH : 125mm / WEIGHT : 23oz
- COLOR : ALUMISH OONAGO / GREENBACK GOLD  
PINK BACK PEARL

### DAIWA TECHNOLOGY

It is a unique color that you can feel the change of the times,  
which is a fusion of the good old days that are not found in the  
current mainstream photo transfer real color and the  
Daiwa real holo pattern "Adel Holo".

Shape that reduces air resistance and allows weight  
movement to the rear end of the body

Equipped with a large tungsten weight

Wire oscillate center of gravity movement By halving  
the kickback spring, the spring pushback in the latter  
half of the cast stays in the center of the body, reducing stall.  
Due to these synergistic effects, the flight distance is  
greatly increased!
