

# BlueCurrent TZ/NANO

**It combines a light and highly sensitive feeling of use, a sharp and stable cast feel, and the power that is activated by bending.**

## BLUECURRENT TZ/NANO BENDING CURVE

The static load comparison does not express all the characteristics of the rod. This comparative image shows the weight gently hung with the reel set on the rod. The momentary repulsive force of the rod and the feeling of use when operating the lure are not expressed. Please see it as a comparison of the power and condition of the rod.
