Line up

- 150m / #0.2 (5lb) / MAX : 2.3kg
- 150m / #0.25 (6lb) / MAX : 2.7kg
- 150m / #0.3 (8lb) / MAX : 3.6kg
- 150m / #0.4 (10lb) / MAX : 4.5kg

FEATURES

The 'MPX' x 'HDX' Manufacturing Method:

The 'MPX' method, which assembles raw materials at high density, adjusted for each size, allows for high-level wear resistance and impact resistance. Additionally, the 'HDX' method, which accurately combines raw materials at high tension, achieves powerful stability and high sensitivity.

GOSEN's Unique 'SG Processing' Produces 'Stiffness,' 'Resilience,' and 'High Sensitivity':

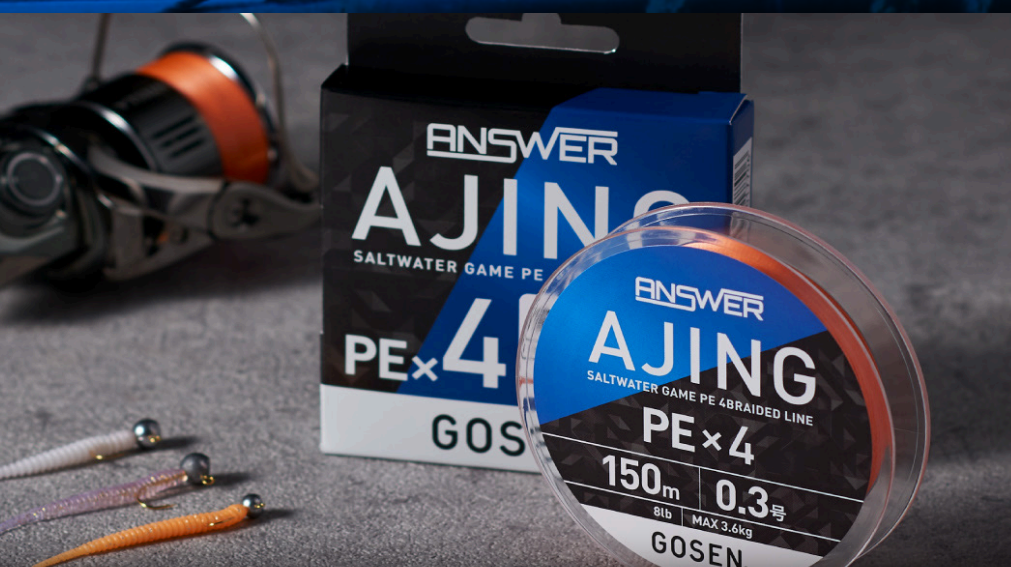

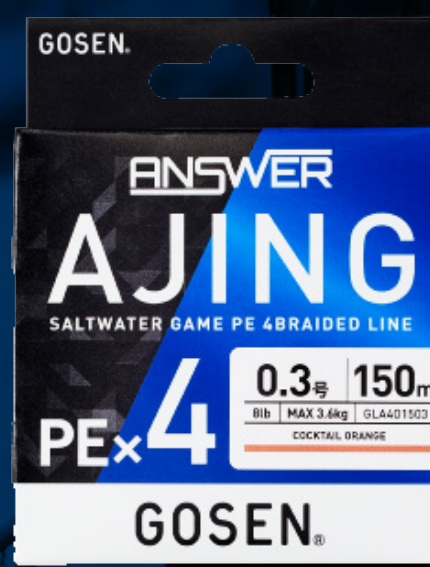

GOSEN's exclusive 'SG Processing' creates the ideal 'stiffness' and 'resilience' for Ajing, offering excellent maneuverability. The design also minimizes initial stretching, ensuring 'high sensitivity' to detect bites from horse mackerel.

Outstanding Line Color Visibility:

Even during nighttime fishing, this line features exceptional visibility. Excellent visibility enhances maneuverability and helps prevent issues.

Line Color:
Cocktail Orange"
