68L "FUNK" - ファンク -

Lure : max 7g / Line : PE #0.8max

for LIGHT ROCK

"One that can target many species of fish.

A wide range of versatility that you will be happy to have."

It can be used in a wide range of situations, from fishing with lightweight jig heads and plugs to rockfish games aimed at the bottom such as light Texas rigs, and scenes that require rod power such as chinook games.

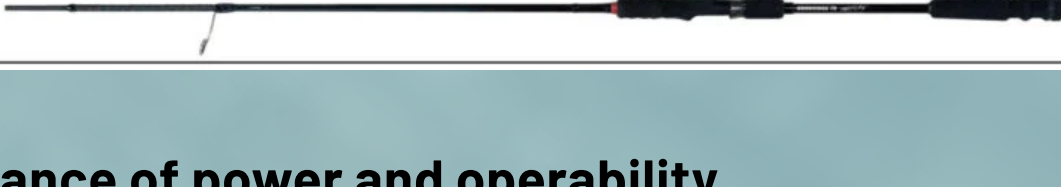

standard	full length	joint number	closing	weight	tip diameter base diameter	carbon content	compatible weight	compatible PE
68 FUNK	6.8ft (203 cm)	2 pcs	105cm	80g	1.3/11.4 m/m	98%	MAX 7g	PE MAX #0.8

78MH "MIXTURE" - ミクスチャー -

Lure : max 40g / Line : PE #1.5max

for BOAT ROCK

for SHORE ROCK

"Excellent balance of power and operability.

Mid-length that is useful for shore and boating"

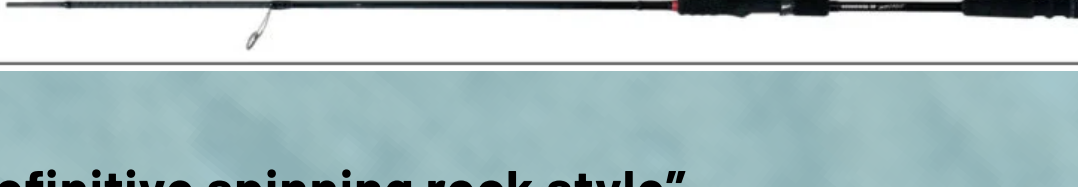

Not only does it have the bat power to handle the torqueful pulling of rockfish, but it also has a flexible tip that bites and doesn't deflect bites, leading you to hook the fish you're aiming for.

standard	full length	joint number	closing	weight	tip diameter base diameter	carbon content	compatible weight	compatible PE
78 MIXTURE	7.8ft (233 cm)	2 pcs	120cm	147g	1.85/11.7 m/m	98%	MAX 40g	PE MAX #1.5

88H "HARD ROCK" - ハードロック -

Lure : max 40g / Line : PE #1.5max

for SHORE ROCK

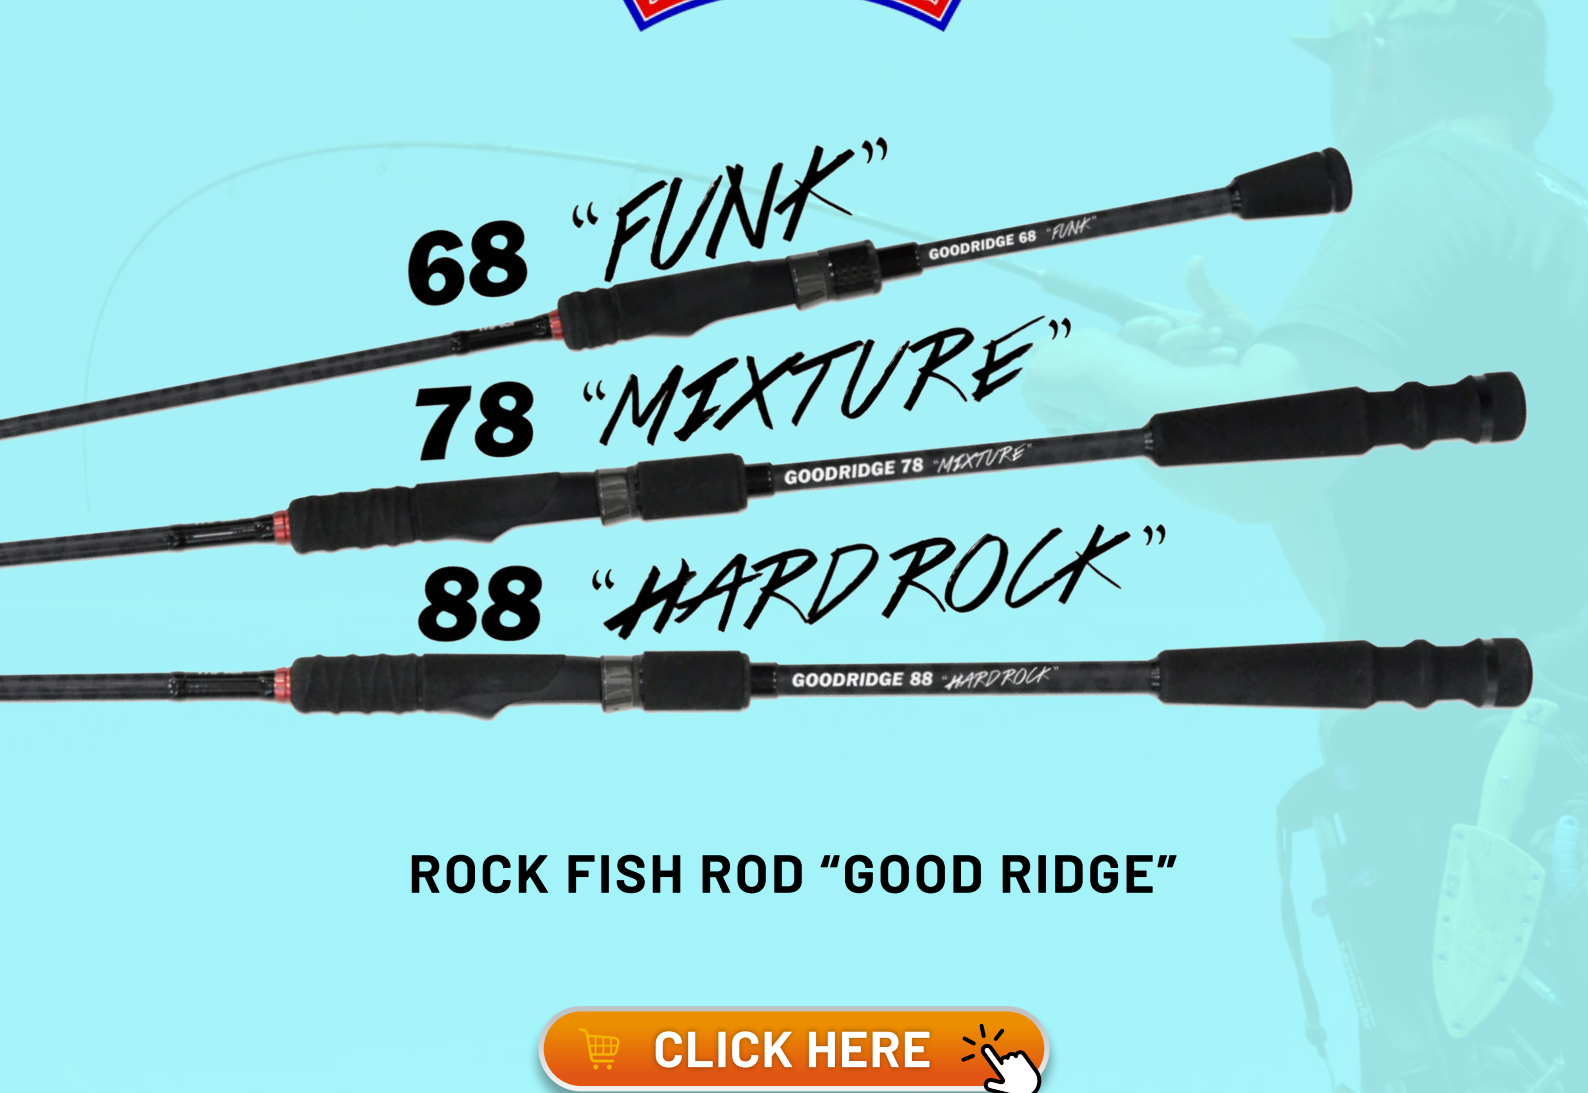

"This is the definitive spinning rock style"

It has a slightly longer length and a blank design with strong repulsion, making it excellent for long casting, allowing you to search a wide range with long casts from rocks and embankments.

standard	full length	joint number	closing	weight	tip diameter base diameter	carbon content	compatible weight	compatible PE
88 HARD ROCK	8.8ft (263 cm)	2 pcs	135cm	157g	1.9/13.5 m/m	98%	MAX 40g	PE MAX #1.5

Target: Rockfish / Flatfish / Bluefish
