SHIMANO MARIN FISHING SANDALS FEATURES

Rubber sole

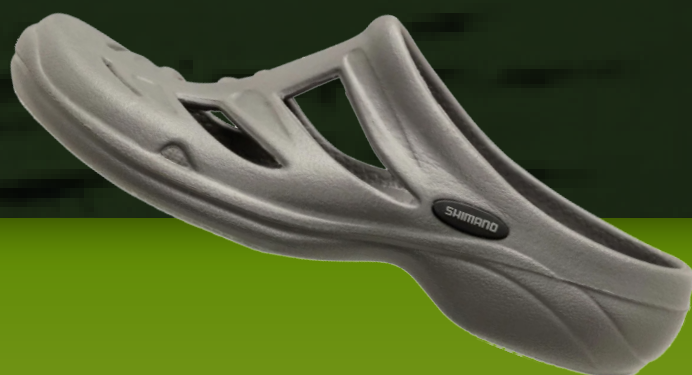

The sole uses a material that exhibits high grip even when wet, so you can wear it everyday and use it even on a wet deck.

Big hole design

Moderate holes in the upper allow for effective breathing, making it comfortable even in the hot summer.

- Lightweight design using foamed EVA
- Even if it gets wet, it does not use materials that absorb moisture, so it dries quickly and keeps you comfortable.
